

UTILITY : LEGACY SAP TO SOH MIGRATION

CHALLENGE

Migration project from Legacy SAP (Non Unicode) to Suite on Hana (SOH)
Over 5000 custom objects developed in non conventional style to be compatible to SOH.

- Legacy SAP IS-U to Business Suite on HANA Migration
 - Identified 4056 custom ABAP objects for assessment and remediation
 - Identified 3065 objects for UC check assessment and fixes
- Initial estimation / Budget for remediation
- **600+ person days** of manual effort, for 10 months time line

SOLUTION

- Selected to use - Kokioshift automation tool
 - 600+ days of manual effort, Kokioshift estimated to complete in 8 weeks

IMPACT

- Return on Investment
 - Savings on Cost: 70%
 - Reduction in Effort: 95%
 - Early Delivered in **4 weeks** to UAT phase
 - Additionally, Standardized code, Optimized for ease of maintenance
 - Validation effort minimized
